MFC - 600 Multi-purpose Hub

The Blade Xtrak range of bicycle charge systems is a line of innovative and easy-to-use products that make charging and servicing your electric bike quick and convenient.

In an age where urban landscapes are continuously evolving, the need for innovative and eco-friendly transportation solutions has never been more critical.

As cities worldwide grapple with traffic congestion, pollution, and the evergrowing demand for efficient mobility options, the introduction of the Blade Xtrak Multi-function Ebike Stations couldn't have come at a more opportune moment. With its cutting-edge features, the Blade Xtrak is poised to transform urban mobility and signal a new era of sustainable commuting. If your ebike is noisy and you need the right tools, if you need charge, if you need to know your asset will be secure, then the MFC-600 covers you
